

ALL GIRLS STEM SOCIETY

Would you like to build your OWN rocket?

Come join us for an afternoon of fun and learning at our first ever Virginia event, the Aerospace Workshop! Build, fly, and keep your own paper rocket. You will learn terms and concepts such as drag, lift, and thrust, which are actively used in the aerospace industry today, Snacks will be provided and there will be prizes for all!

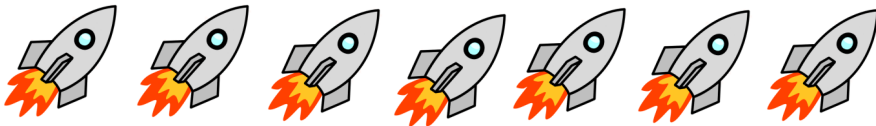

Our purpose is to encourage and empower girls to pursue careers in STEM (Science, Technology, Engineering, Math) related fields, through free workshops and events.
